

S Club 7, I Really Miss You

I called you today, just to hear you say you were not around
When the message was through, though I wanted to
I couldn't make a sound
I wanna tell you the things I've seen
I wanna take you to where I've been
And I wish you were here with me
Don't you know

Chorus:

I really miss you Yes I do- yeah
I really miss you
Ohhhhh yeah I do

I'm writing to say - Had a wonderful day,
Hangin' with my friends
But the memory dies as the sun leaves the skies - I'm alone again
I wanna tell you the weather is fine
When the night comes around you were on my mind
And I wish you were here with me
Don't you know

Chorus:

I really miss you
Yes I do - yeah
I really miss you
Yes I do - I miss you
I really miss you
Ohhh yeah I do

I wanna tell you the things I've seen
I wanna take you to where I've been
And I wish you were here with me
Oh don't you know

Chorus:

I really miss you
Yes I do yeah
I really miss you
I miss you

I called you today just to here you say you were not around
When the message was through, though I wanted to
I couldn't make a sound
I'm writing to say - Had a wonderful day,
Hangin' with my friends
But the memory days as the sun reach the skies - I'm alone again
