

# S Club 7, I Really Miss You

I called you today, just to hear you say you were not around  
When the message was through, though I wanted to  
I couldn't make a sound  
I wanna tell you the things I've seen  
I wanna take you to where I've been  
And I wish you were here with me  
Don't you know

Chorus:  
I really miss you Yes I do- yeah  
I really miss you  
Ohhhhh yeah I do

I'm writing to say - Had a wonderful day,  
Hangin' with my friends  
But the memory dies as the sun leaves the skies - I'm alone again  
I wanna tell you the weather is fine  
When the night comes around you were on my mind  
And I wish you were here with me  
Don't you know

Chorus:  
I really miss you  
Yes I do - yeah  
I really miss you  
Yes I do - I miss you  
I really miss you  
Ohhh yeah I do

I wanna tell you the things I've seen  
I wanna take you to where I've been  
And I wish you were here with me  
Oh don't you know

Chorus:  
I really miss you  
Yes I do yeah  
I really miss you  
I miss you

I called you today just to here you say you were not around  
When the message was through, though I wanted to  
I couldn't make a sound  
I'm writing to say - Had a wonderful day,  
Hangin' with my friends  
But the memory days as the sun reach the skies - I'm alone again
