

S Club 7, Whole Lotta Nothing

Whole lotta nothin'

Take me on a spin
Do your thing but you can't get in
No no
Ain't about to give it all up
Just coz you pull up in your drop-top

Gotta do it right
Boy you're moving too fast, rewind
Oh oh
If you wanna slip in my bed
Then you want what you can't get

Either you got it
And you're coming back to mine
Or just forget it
Don't go wasting my time

Gotta be a man who's there for me
Somebody who will always care for me
No doubt in what you've gotta do
No class, no pass no room for you
If you wanna be my mister right
You gotta know what I need tonight
Be mine, can't be no other way
No creep, no peep and a whole lotta nothin'

Take me on a cruise
Give me something that I can't refuse
Uh oh
Takes more than a good time
To let you know that you're my kind

Either you got it
And you're coming back to mine
Or just forget it
Don't go wasting my time

Gotta be a man who's there for me
Somebody who will always care for me
No doubt in what you've gotta do
No class, no pass no room for you
If you wanna be my mister right
You gotta know what I need tonight
Be mine, can't be no other way
No creep, no peep and a whole lotta nothin'

No creep, no peep
No creep, no peep
No creep, no peep
And a whole lotta nothin'

Don't go wasting my time

Gotta be a man who's there for me
Somebody who will always care for me
No doubt in what you've gotta do
No class, no pass no room for you
If you wanna be my mister right
You gotta know what I need tonight
Be mine, can't be no other way
No creep, no peep and a whole lotta nothin'

Gotta be a man who's there for me
Somebody who will always care for me
No doubt in what you've gotta do
No class, no pass no room for you
If you wanna be my mister right
You gotta know what I need tonight
Be mine, can't be no other way
No creep, no peep and a whole lotta nothin'

Don't go wasting my time

Gotta be a man who's there for me
Somebody who will always care for me
No doubt in what you've gotta do
No class, no pass no room for you
If you wanna be my mister right
You gotta know what I need tonight
Be mine, can't be no other way
No creep, no peep and a whole lotta nothin'
