

S Club, So Right

There was nothing I could do boy,
I'll tell you from the heart,
Right from the start,
It wasn't me and you.

And if I'm gonna be with you boy,
I'm tired of all the games,
You know we want the same,
What am I to do?

Can I give you a sign,
Tell you you're mine.
Chorus Because it's so right,
When we all get back together,
Me and my friends are for ever and ever, so nice,
When we're all sharing our dreams,
There for each other you know just what I mean.
repeat(2x)
Back to back,
Cheek to cheek,
This is where we like to meet,
Don't be shy, don't be late,
Meeting here with all our mates

Because you know when I'm with you girl,
We'll always get along,
Feeling so strong,
You're like a rock to me.

Now when you're with another,
We'll always be the same,
Like sunshine in the rain,
Do you know what you mean to me?

Can I give you a sign,
Tell you you're mine.

Chorus: Because it's so right,
When we all get back together,
Me and my friends are for ever and ever, so nice,
When we're all sharing our dreams,
There for each other you know just what I mean.
