

# S Club, Venger Is Here

Another spooky night,  
Another creepy fright  
In little old helix town.  
Before you cut some slack,  
Those violent orcs attack  
And everything's goin' down.  
Venger is here.  
Just give us a break.  
Venger is here.  
It's a give and take.  
Venger is here.  
Just give us a break.  
He's fake.  
The ranger, cavalier,  
And the others appear  
When venger rears his ugly head.  
Despite they may not die,  
Their pal uni will cry  
And later on, she is dead.  
Venger is here  
And we're in trouble.  
Venger is here.

Better cut on the double.  
Venger is here  
And we're in trouble.  
He's fake.  
There goes those six young tykes  
Whenever venger strikes  
And later on, he is gone.  
The cavalier says: halt,  
It's dungeon master's fault  
For leading us at the crack of dawn.  
Venger is here.  
We just want him dead.  
Venger is here.  
He'll be over your head.  
Venger is here.  
We just want him dead.  
He's fake.  
Venger is here.  
Venger is here.  
Venger is here.  
He's fake.
