S Club, Whole Lotta Nothing

Whole lotta nothin'

Take me on a spin Do your thing but you can't get in No no Ain't about to give it all up Just coz you pull up in your drop-top

Gotta do it right Boy you're moving too fast, rewind Oh oh If you wanna slip in my bed Then you want what you can't get

Either you got it And you're coming back to mine Or just forget it Don't go wasting my time

Gotta be a man who's there for me Somebody who will always care for me No doubt in what you've gotta do No class, no pass no room for you If you wanna be my mister right You gotta know what I need tonight Be mine, can't be no other way No creep, no peep and a whole lotta nothin'

Take me on a cruise Give me something that I can't refuse Uh oh Takes more than a good time To let you know that you're my kind

Either you got it And you're coming back to mine Or just forget it Don't go wasting my time

Gotta be a man who's there for me Somebody who will always care for me No doubt in what you've gotta do No class, no pass no room for you If you wanna be my mister right You gotta know what I need tonight Be mine, can't be no other way No creep, no peep and a whole lotta nothin'

No creep, no peep No creep, no peep No creep, no peep And a whole lotta nothin'

Don't go wasting my time

Gotta be a man who's there for me Somebody who will always care for me No doubt in what you've gotta do No class, no pass no room for you If you wanna be my mister right You gotta know what I need tonight Be mine, can't be no other way No creep, no peep and a whole lotta nothin' Gotta be a man who's there for me Somebody who will always care for me No doubt in what you've gotta do No class, no pass no room for you If you wanna be my mister right You gotta know what I need tonight Be mine, can't be no other way No creep, no peep and a whole lotta nothin'
