

S Club, You

You are all I need to get me through (get me through now baby)
Like a fallin' star I fell for you (I fell for you)

Sweet anticipation
Is giving me the butterflies
And my heartbeat's racin'
'Cause lovin' you is beautiful
And you're so irresistible

So don't stop (don't stop)
What you're doin', baby
So good (so good)
And it drives me crazy
One touch, I'm in heaven, yeah
'Cause lovin' you's so beautiful baby, 'cause

You are all I need to get me through (to get me through now)
Like a fallin' star I fell for you (I fell for you now)
You have taught me how to love
An angel sent from high above
And now I know that all I need is you

'Cause I need you
And you need me
And we'll always be forever

I thought I knew what love was
I always ended up in tears (ended up in tears)
It's just the way my world was
Until you walked into my life
It's something that I just can't hide

Real love (real love)
Has come our way
And I know (I know)
That it's here to stay
And it feels
Like never before
'Cause lovin' you's so beautiful baby, 'cause

You are all I need to get me through (to get me through now)
Like a fallin' star I fell for you (I fell for you now)
You have taught me how to love
An angel sent from high above
And now I know that all I need is you

'Cause I need you
And you need me
And we'll always stay together
'Cause I need you
And you need me
And we'll always be forever

You're my inspiration
my world just seems a brighter place
I just wanna tell you (tell me)
I've never ever felt this way
I never thought I'd see the day

Real love (real love)
Has come our way
And I know (I know)
That it's here to stay
And it feels

Like never before
'Cause lovin' you's so beautiful baby, 'cause

You are all I need to get me through (to get me through now)
Like a fallin' star I fell for you (I fell for you)
You have taught me how to love
An angel sent from high above
And now I know that all I need is

You are all I need to get me through (get me through now baby)
Like a fallin' star I fell for you (I fell for you)
You have taught me how to love
An angel sent from high above
And now I know that all I need is you

(repeat to fade)
