

# S.J.K., Eternity

[M: Dilian Arnaudov; L: Tinko Georgiev]

With a light I will guide through the fight  
Follow me over the field  
Enemy's anxious, scared for your long waited turn

Beloved Goddess remember that  
I doth bestow you myself  
Bless my soul and wade with me through mortal remains

The morning after, the misty shadows  
The taste of madness bittersweet  
Hills clad with dullness, sodden gory clay  
Crimson daybreak slowly comes

[Bridge:]  
Here where past meets today  
All my deeds will claim on tomorrow  
I stand on my own  
'Cause my body is shielded by gods

[Chorus:]  
Forever and ever,  
As shades of doom drew on  
In silence they whisper:  
The Blade of One will rise!  
Eternal, immortal  
The glory lies ahead  
Go take it! Remember!  
Your name's the Blade that lasts

I fight with rattle across this world of men  
For blood I lust now furious  
Oh, Goddess, sublime, witness my triumph  
Promised destiny soon will come

[Bridge:]  
See death follows me  
And no man will live till tomorrow  
I stand for the world  
Cause my life is ruled by the gods

[Chorus:]  
Forever and ever,  
As shades of doom drew on  
In silence they whisper:  
The Blade of One will rise!  
Eternal, immortal  
The glory lies ahead  
Go take it! Remember!  
Your name's the Blade that lasts
