

S.T.U.N., The Future Is Now

Are you o.k.?
Am I really o.k.?

When everybody's got a drug
And everybody's got to lie
Let's find a way to get it outside
Find a way to get it outside

And be the evolution of energy
Evolution of energy

Future, future, future is now! (Future, Future)
Our time, our time, our time is now!

No submission in sight
At 3 o'clock at night
Shed all your battle gear
We'll get you out of here

We are the evolution of energy
The evolution of energy

No need to fear
This is a different year
Our time is now
Future is now

Are you o.k.?
Am I really o.k.?

When everybody's got a drug
And everybody's got to lie
