

Sa-Fire, Don't Break My Heart

You, you keep on trying, trying to tear me apart
And I knew from the very start that you'd, you'd steal my heart
Because of you I'm crying
I never know when you're lying
What we have is real
You can't hide what you really feel
You have my heart
You're my dream from the start
You know I need you baby
You touched my soul
Do you want me to go
I feel I love you baby

Chorus:
So don't break my heart
Finish what you started baby
Don't break my heart
I can't live without you
Don't break my heart

Love was so true baby
Don't break my heart (3x)

You, you keep on lying, keep lying that you really care
Stop, stop playing these games
And show me your love is still there
The love, the love I had inside me everyday
The love was strong
And what we have is real
You can't hide what you really feel
You have my heart
You're my dream from the start
You know I need you baby
You touched my soul
Do you want me to go
I feel I love you
I loved you (3x)

Chorus (2x)
