

Sabaton, Nuclear Attack

Prepare for nuclear attack
Dropped from Enola, a city erased, threat of the future displayed
A power unheard of a power unseen
Flash out of nowhere, the sky is burning

At 8:16 AM Tokyo control realized something was wrong
Reports of explosions, destruction and pain
Air raid from hell city gone in a blaze

August in black, B-29's turning back

Prepare for nuclear attack
Wombat in the east
Prepare for nuclear attack
Extermination
Strike back
Chose not to believe
Another nuclear attack

From the southeast came the second attack, threat of tomorrow unveiled
11:02 on the 9th of August
Over the valley, like ball lightning

The bomb detonates and the land turns to waste, barren for decades to come
The factories burning, the steelworks destroyed
Surrender your war else you'll perish in flames

Second attack, B-29's turning back.

(repeat chorus)

August in black, B-29's turning back

Another, another, nuclear attack
Wombat in the east
Prepare for nuclear attack
Extermination
Strike back
Chose not to believe
Another nuclear attack

(repeat chorus)

A nuclear attack
