

Sabina Jeszka, Good Times

I found the rythm of my life
I wanna feel it with all my heart
Boy can't you see that's not because of you
In my life there's also place for you and me

I don't wanna lose this life NO
I don't wanna lose your love NO?
I just wanna live this life
I'm with you , you with me
Don't you see?

The other day I found this feeling within my heart
A kind of feeling that keeps me alive
I wanna show you that this is the time for you and I
So please remember if you wanna do something more
Than you can join me, we will have a good time
That's why I wanna make this special
Just for you and I

Nothing can stop us and I know it now
Just tell me baby you wanna be with me

I don't wanna lose this life NO
I just wanna lose your love NO?
I just wanna live this life
I'm with you , you with me
Don't you see?

The other day I found this feeling within my heart
A kind of feeling that keeps me alive
I wanna show you that this is the time for you and I
So please remember if you wanna do something more
Than you can join me, we will have a good time
That's why I wanna make this special
Just for you and I

We're gonna find the way
Hoping that it will last forever
Feeling so good when I'm with you
You give me power to live
You are the meaning of my life
That's why the only one is you
I mean you

The other day I found this feeling within my heart
A kind of feeling that keeps me alive
I wanna show you that this is the time for you and I
So please remember if you wanna do something more
Than you can join me, we will have a good time
That's why I wanna make this special
Just for you and I
