

# Sabrina Carpenter, All We Have Is Love

[Verse 1]

They could tear this house down brick by brick  
But we won't even miss a thing  
They said we'd never make it but our hearts won't quit  
A never ending fantasy

[Pre-Chorus]

We could be royalty, king and queen of nowhere  
Lose it all, everything  
As long as we got you and I, you and me  
They can tear this whole house down

[Chorus]

All we have is love  
All we have is love  
All we have is love  
When shadows and demons are chasing  
There's no way that our hearts will be breaking  
Cause all we have is love

[Verse 2]

We don't need a dream to be wide awake  
When every day is ecstasy  
We won't let the stars crossed change our fate  
It's heaven when you're next to me

[Pre-Chorus]

We could be royalty, king and queen of nowhere  
Lose it all, everything  
As long as we got you and I, you and me  
They can tear this whole house down

[Chorus]

All we have is love  
All we have is love  
All we have is love  
When shadows and demons are chasing  
There's no way that our hearts will be breaking  
Cause all we have is love

[Interlude]

They could tear this house down brick by brick  
But we won't even miss a thing  
They said we'd never make it but our hearts won't quit  
A never ending fantasy

[Chorus]

All we have is love  
All we have is love  
All we have is love  
When shadows and demons are chasing  
There's no way that our hearts will be breaking  
Cause all we have is love

[Outro]

Cause all we have is love  
Cause all we have is love□
