

Sabrina Carpenter, bet u wanna

Told me told me
I'm your only
It's all unfolding, babe
Slowly, slowly
Lies you sold me all saw the light of day

You been wasting time
On the other side
If your satisfied
Touché
Now you say you hate
All the empty space
And if you could go back you'd stay

Didn't think about it when you let me down
Hurts to see me out of your reach
Bet you wanna touch me now
It's cold out there
Let me know what you found
Bet you wanna love me now
Bet you wanna love me now

Chase me, chase me
That's right, baby
Yeah, feel the way it feels
When you don't have control of who I'm holdin'
Is it feeding all your fears?

You been wasting time
On the other side
If your satisfied
Touché
But the lights are off
Your so-called friends are gone
Oh, I know what your bout to say

Didn't think about it when you let me down
Hurts to see me out of your reach
Bet you wanna touch me now
It's cold out there
Let me know what you found
Bet you wanna love me now
Bet you wanna love me now
Didn't think about it when you let me down
Hurts to see me out of your reach
Bet you wanna touch me now
It's cold out there
Let me know what you found
Bet you wanna love me now
Bet you wanna love me now

I bet you wanna
I bet you wanna

Bet you miss me
Bet you're reminiscing
I bet you hate the way that you said goodbye
And you still can't even tell me why
I hate the way that you left me dry
But I'll keep that between you and I

I bet you didn't think about it when you let me down
Hurts to see me out of your reach
Bet you wanna touch me now

(Oh, touch me now)
It's cold out there
Let me know what you found
Bet you wanna love me now
Bet you wanna love me now
