

Sabrina Carpenter, Jonas Blue, Alien

this feeling's so alien
need to know if you're just a friend
are you a secret or more than in
so leave it on my brain if you feel the same
light, but I notice it
Don't know the rules but I got to win
the paranoia is sinking in
so leave it on my brain if you feel the same

let me discover all of your colors
if you love me let me know
no, no, let me discover all of your colors
if you love me let me know

Don't let me leave when I'm standing at your door
Don't make me stop when you're really wanting more
it you show me what you should be thinking of
let get inside your mind
if you show me love it'll be enough

it'll be a better night

if you love me let me know
if you love me let me know
if you love me let me know
it'll be a better night
if you love me let me know
if you love me let me know
if you love me let me know
it'll be a better night

alienated then
right about when our love begin
emotions are moving in
getting in my space
living in my place
when did these games begin?
I'm overthinking my thoughts again
no we don't break
but we're bound to bend
getting in my space, living in my place

let me discover all of your colors
if you love me let me know
no, no, let me discover all of your colors
if you love me let me know

Don't let me leave when I'm standing at your door
Don't make me stop when you're really wanting more
it you show me what you should be thinking of
let get inside your mind
if you show me love it'll be enough

it'll be a better night

if you love me let me know
if you love me let me know
if you love me let me know
it'll be a better night
if you love me let me know
if you love me let me know
if you love me let me know
it'll be a better night
