

# Sabrina Carpenter, Lonesome

If i fall in love with all my problems  
Will they leave me too?  
well maybe i believed in all your lies  
Cause i believed in you  
why were you somewhere else  
When you were next to me  
I know you know it keeps me up  
Did u think about her face  
with your hands around my waist ?  
did u even give a fuck  
You can't spell lonesome without me  
Mm mm mm  
and there's no hope in misery  
Mm mm mm  
i can't escape your history  
you can't spell lonesome without me  
You just can't  
tell me i I was more than just a decent opportunity  
or will you tell me anything i wanna hear to control how you're perceived  
why were you somewhere else  
When you were next to me  
I know you know it keeps me up  
isnt it kind of strange  
how it all changed when  
i wasn't the one they wanted u to love
