

Sacramentum, When Night Surrounds Me

(Music: Brolycke, Rudolfsson)

Lyrics: Karlen)

When night slowly spread its blackened wings
and breathe out chilly moist and mist,

I experience an obsession

of evil which I worship

I can feel the night

caress my body with it's beauty,

and the cold dead light

from the moon upon the black sky.

Night is all around me

as I drown in delight.

Oh night, I'm overwhelmed

by thy majestic might.

Under the mighty wings of blackness

I deny my earthly existence.

Embraced by thy nocturnal paradise

I will forever belong to the night.

It's time to breathe

the seents of the night.

I opened my veins

to let the night in and I came...

When night slowly spread its blackened wings

and breathe out chilly moist and mist,

I experience an obsession

of evil which I worship

I can feel the night

caress my body with it's beauty,

and the cold dead light

from the moon upon the black sky.

Night is all around me

as I drown in delight.

Oh night, I'm overwhelmed

by thy majestic might.
