

# Sacred Rite, Cold Hearted Girl

You say you'll love me forever  
You got my heart in your hands every day  
You say "you've got to get it together  
And make me part of your plans, take me away"

You say that you'll love me forever  
But then you call it a day  
You take my heart away  
You're a woman of the world  
You're a cold hearted girl  
Dime-a-dozen, imitation, mother-of-pearl  
Cold hearted girl

You say you've got no other  
You tell me I'm your man every day  
But you're a two-timin' lover  
And now I gotta make plans, I gotta get away
