

# Sacrifice, Infernal Visions

Conscious mind is closed off to reality  
Mutilation of my soul comes in gradually  
Nightmares of flame come into sight  
To hell my mind takes its subconscious plight

Death in dreams, hellish thoughts  
Infernal visions battles been fought  
Trapped in mind waiting for daybreak  
Already dead I can't awake

Maggots feed upon the brains of the demised  
Death is real I've slowly died  
To the ruler of the abyss I've been beckoned  
From the world of reality I've been summoned
