

# Saddle Club, Girl With Claws

Some girls talk forever about nothing at all  
But I'd rather spend Daddy's money down the mall  
I'll stroll across your feelings to get what I want  
Manipulating everyone  
I'm the girl with claws  
So don't you get too near  
Freeze you cold with eyes on fire  
Tongue as sharp as razor wire  
Girl with claws. What is your lesson here?  
Don't try to put me to the test, you know you'll come off second best.  
I strike such queenly poise, with my nose in the air  
I never do my chores, it might ruin my hair  
I like all eyes on me, pretending I don't care  
And flattery will get you everywhere  
I'm the girl with claws  
So don't you get too near  
Freeze you cold with eyes on fire  
Tongue as sharp as razor wire  
Girl with claws. What is your lesson here?  
Don't try to put me to the test, you know you'll come off second best  
Oh, when you think you've got me figured out  
Is there another me just bursting to get out?  
Could be, Cause I'm the real deal, yeah  
I'm the girl with claws  
So don't you get too near  
Freeze you cold with eyes on fire  
Tongue as sharp as razor wire  
Girl with claws. What is your lesson here?  
Don't try to put me to the test, you know you'll come off second best
