

SafetySuit, The Moment

From when I wake
In the morning 'till I go and
And I fall asleep each night
I fight to hold on to
A love that is inside
Because my past is like a nightmare
That I never can escape
And I can't wait till I wake up so I can fall back asleep

And I don't understand what happened between you and me, but
You will probably end up with someone half as good as me, so
I don't care if you want to look in my eyes and say hello
You were blind to me, now I'm blind to you, know

So now I wait for the moment when I know that there's no one left to see
All the hurt that's inside me and the reason that I need
I need to let go of the things I see that have always let me fall
And I cannot find my way home, no, because I'm already home

And I don't understand what happened between you and me, but
You will probably end up with someone half as good as me, so
I don't care if you want to look in my eyes and say hello
You were blind to me, now I'm blind to you, know

Blind to me, blind to you

And I don't know what you need
But I know your listening now
And I don't care what you think
Because you didn't think to care about me

And I don't know what you need
But I know your listening now
And I don't care what you think
Because you didn't think to care about me

And I don't understand what happened between you and me, but
You will probably end up with someone you know that is half as good, so
I don't care if you want to look in my eyes and say hello
You were blind to me, now I'm blind to you, know

You were blind to me
Now I'm blind to you
