

# Safura, March On

The battle has begun  
And we must move as one  
Despite what we've done  
We can achieve

And yes we bleed  
And we scar  
but we can't forget  
who we are  
Now we've reached the stars  
We can't stop believin'

We used to be enemies  
Now we need us  
We're gonna be backin up  
Backin up  
And with every move  
With every breath we take

We're gonna march on  
Like there's nothing in our way  
We're gonna march on on  
Like soldiers - not afraid  
We're carved in time  
Here on the front line  
We're gonna march on on  
We're gonna march  
We're gonna march  
We're gonna march on

We know what lies up ahead  
Up ahead  
But we push push on instead  
Of turning out backs on a friend  
We begin  
To relaise what we've achieved

We're gonna march on  
Like there's nothing in our way  
We're gonna march on on  
Like soldiers - not afraid  
We're carved in time  
Here on the front line  
We're gonna march on on  
We're gonna march  
We're gonna march  
We're gonna march on

1, 2, 3, 4  
Just keep marchin on the floor  
5, 6, 7, 8  
Get up it's never too late  
8, 7, 6, 5  
everybody come alive  
4, 3, 2, 1  
Keep on marchin' march on/ x4

We're gonna march on  
Like there's nothing in our way  
We're gonna march on on  
Like soldiers - not afraid  
We're carved in time  
Here on the front line

We're gonna march on  
We're gonna march  
We're gonna march  
We're gonna march on
