

Saga, Ashes To Ashes (Chapter 11)

Watching

Now I know what to do

And waiting

I will blacken the view

I'll burn the oil

Someday you'll understand

I'm watching

Watching your boats and planes

And waiting

Please don't try to explain

I know what you've got buried in the sand

First Chorus:

Ashes to ashes and dust to dust

It all comes down to who you really trust

Ashes to ashes and dust to dust

Why can't you say, you've finally had enough

Watching

We are not far away

And waiting

We can be there today

I think it's time you had a change of plan

I'm watching

If you can't stop this yourself

And waiting

We will give you some help

Your story ends with no one left to tell

Ashes to Ashes

Second Chorus:

Ashes to ashes and dust to dust

It all comes down to who you really trust

Ashes to ashes and dust to dust

Now what I do, I do for all of us

Repeat First Chorus
