

Saga, Don't Say Goodbye

When twilight comes too soon
And darkness fills the room
It's time to, walk into the sun
When all is said and done
And passions on the run
It's time to, walk into the sun
And feel the heat
Feel the passion grow 'till you can't breathe
Walk into the sun
Just feel the heat
Feel the dragons breath under your feet
Walk into the sun
Don't say goodbye
Cause you're already gone
Don't say goodbye
Cause you're already gone
Feel the heat
Feel the passion grow 'till you can't speak
Walk into the sun
Just feel the heat
Feel the dragons breath under your feet
Walk into the sun
Don't say goodbye
Cause you're already gone
Don't say goodbye
Cause you're already gone
