

Saga, Easy Way Out

Look at me can you see
A reason for these questions
We've come so far
It's only started
Let's not end up broken hearted
We feel much more for each other
Than we care to say
We're trapped in a situation
Which makes us feel so afraid
You ran away from me
But you were hiding from yourself
Don't know what to say I know the way I feel
I know that - you want me
The same way I want you
If you slip through my hands
Like water like sand I'll never give up
Can you see - the magic
Or do you still have doubts
Still trapped in a situation
You took the easy way out
You ran away from me
But you were hiding from yourself
Don't know what to say
I know the way I feel
Just think of all the times
Waiting for this moment
There's no better time
I know the way I feel
No one makes the first move if we wait
No one makes a sound or a mistake
And I feel as though you're thinking what I think
Afraid of stepping out from where we stand
You ran away from me
But you were hiding from yourself
Don't know what to say
I know the way I feel
Just think of all the times
Waiting for this moment
There's no better time
I know the way I feel
