

# Saga, (Goodbye) Once Upon A Time

As a child  
Each day seemed to last forever  
All the answers  
To mysteries were mine to uncover  
As a child I was entertained by simple pleasures  
All the questions  
Were ways to find the earlen treasures  
As a child  
Sheltered by my innocence  
I was searching  
For ways to climb the highest fences  
The days go by  
Where did the time go  
Goodbye once upon a time  
No more thinking I'm past my prime  
Goodbye once upon a time  
No more living in the past  
What's mine is mine  
As a young man  
My life's gone through so many changes  
All the dragons  
I thought I'd slain became my frustrations  
As a young man  
I've come to meet my childhood's end  
All the answers  
Have since convinced me,  
I should stop pretending  
As a young man  
Finally I've realized  
I've been dreaming  
Living with my past disguises  
Where did the time go  
Goodbye once upon a time  
No more thinking I'm past my prime  
Goodbye once upon a time  
No more living in the past  
What's mine is mine  
Goodbye once upon a time  
No more thinking I'm past my prime  
Goodbye once upon a time  
No more living in the past  
What's mine is mine
