

# Sahara Hotnights, Stupid Tricks

My stupid tricks do you know how to fight them  
You're being fooled even worse than you know  
It takes brains are you sure that you got it  
Checked your reaction but it seemed too slow

Cracking jokes I know you tried to ignore them  
Still woke up with my laugh by your side  
Caught you sleeping through the brightest of hours  
You still think you can avoid me after all those times you've tried

If we ever find out  
nothing surprises us anymore  
If we ever go down there  
asking what we came here for  
Our stupid tricks

Scoring points your silence made me the winner  
You weren't there when I changed all the rules  
You keep looking over your shoulder  
Repeating old mistakes and we make them feel brand new

Too uptight to slow that we care  
and we ain't got one minute to spare  
We got a hard time coming if we're not prepared
