

# Sahara Hotnights, We're Not Going Down

We're not going down on our knees for your sake  
Straight on that's the way we know what it takes  
We've made up our minds and we're back on the scene  
No use for bad advice 'cause we know what we need

[Chorus:]

Everything was going so right till you came along  
Just try to shake us down from the sky  
you've got it all wrong

Nice try what a waste but we told you before  
hands up, quick mistakes we won't take it no more  
Too drunk to make sense, too short to stand tall  
We saw you lose your faith we can't wait for your fall

[Chorus 4x]
