

Sahlene, Blame It On Me

I have friends I have friends
You used to be one of them
I can't say that I miss you
You were always in a bad mood
Did I ever really like you?
I don't know if I did
Do you miss me?
I don't think so
Don't pretend
I said don't pretend

Chorus:
So if you're feeling lonely
You can blame it on me
And if you need a reason
Let it be me
Whatever it takes
Your biggest mistake
Blame it on me

Your blame sets me free
You're a girl
Just a girl
That he used to know
So don't act like you own him
Remember you let him go
I was there when you weren't
Did you forget where you were?
You were somewhere with somebody
Putting yourself first
Putting yourself first

Chorus

Your blame sets me free
Anything that makes you believe
I did you wrong, makes you strong
Maybe then you will go on
To a place
To a place where you belong

Chorus
