

Saint Etienne, New Thing

"Jayston"

"Our Father, who art in Heaven
Please, stay there"

"Sarah"

You think
It's such a new thing
You've got me where you want me
You've got me where you want me
Ooh yeah

You think
It's such a new thing
You've got me where you want me
You've got me where you want me
Ooh yeah

Could it be we'll stay together
Will I ever know
If this night could last forever
Maybe then I'll know

Could it be we'll stay together
Will I ever know
If this night could last forever
Maybe then I'll know

You think
It's such a new thing
You got me where you want me
You got me where you want me
Ooh yeah

You think
It's such a new thing
You got me where you want me
You got me where you want me
Ooh yeah

"Could it be we'll stay together
Will I ever know
If this night could last forever
Maybe then I'll know

Could it be we'll stay together
Will I ever know
If this night could last forever
Maybe then I'll know"

You think
It's such a new thing
You think
It's such a new thing
