

Saint Etienne, Stop And Think It Over

Had to take a train and get out of the rain
Time to stop
Think it over

Another cup of coffee but I'm feeling the same
Gotta stop
Think it over

Could he be a lover (I don't know what to say)
Could he be a friend (Mmm, so unsure)
Could you find another (Could it be a solution)
Come and go, maybe tomorrow

Draw the curtains tighter 'cause I'm feeling the cold
Time to stop
Think it over

High above the city, see it turning to gold
Had to stop
Think it over

Could he be a lover (I need a little more time)
Could he be a friend (Just a week or so)
Could you find another (Mmm, I can play that game)
I don't know if I'm coming or going

Could he be a lover (I've traveled all this way)
Could he be a friend (When I want more)
Could you find another (There's a ship on the ocean)
Another day
Feel I could float away

Feel I could float away
