

# Saint, Space Cruiser

Out on a barren street  
Just outside of town  
The spaceman and his fleets  
They're all touching' down  
They're not from outer space  
Nor the ocean or sea  
Air defense stand by  
What you spot report to me  
Space Cruiser  
Deep down inside the earth  
Demons damned and cursed  
Materializing steel  
Forging satanic will  
Oh no, here comes space cruiser  
A flying curse up in the sky  
Sent here from utter darkness  
They've come to tell us all their lies  
Why did the spacemen come here  
From a far and distant land  
And did they place the green goop in the ocean  
That turned the fish into man  
Space Cruiser you're exposed for all to see  
Your plot is evil glad it's you,  
Not me Determined tyrant spilling out your sin  
You're claiming victory but you'll never win
