

# Saint, To Live Forever

Lately

The nights been dragging on

Hard times make you cold

Oh I've been searching for so long

Now I know I'm wrong

Living in lies and broken dreams

Watching your life on a TV screen

Say it's your will

Say it's your thrill

Say it's your will to live forever

No time

Is all the time I have

To waste my time with you

I might change

But change remains the same

No cash back when change is due
