

# Salad, Granite Statue

Sitting in a garden with a face like a granite statue  
I am winter solstice waiting like a granite statue

Just like a granite statue  
I will come when the weather's fine  
Just like a granite statue  
I want to know what's on your mind

Every single time that I come here I can't tell you what I feel  
I am so polite to you and courteous  
I know that it's not real

I long to grab a hold of you and take you in my arms tonight  
But when I feel I'm going to my courage flies away and I turn cold

Chorus

Just like a granite statue  
Statue, is that you, statue

Just like a granite statue  
I will come when the weather's fine  
But I'm a granite statue  
And I know you'll not ever be mine  
Just like a granite statue  
Statue, is that you, statue...
