

# Salad, Insomnia

Some say I'm ill  
Sick as a parrot, bone-chilled  
How does my face look today?  
Don a smart cane in a dandy way  
My head is full  
I cannot think  
Slip downstairs for a secret lemonade drink  
Lemonade drink

Sleep cures everything  
Sleep cures, if it's deep enough  
Sleep cures everything but insomnia  
Insomnia

Money - a modern factor  
A quick rub down or a chiropractor  
I kid you, you kid me  
Take a close look at the family tree  
Sex dreams, nightmares  
Wake me up to the fact that nobody cares  
Nobody cares

## Chorus

I go out like a light  
Clutch the heart of the night  
I go out like a light  
Clutch the heart of the night

Yoga turns, watering plants  
Even a flapping limb dance  
Anything but the job in hand  
Gotta lift my head clean out of the sand  
Out of the sand
