

# Salad, Planet In The Ocean

Somebody told me there's a planet in the ocean  
We call it love of the girl  
But we don't wanna be the potion  
It's such a savoury world  
There's a planet in the ocean  
They call it love of the girl  
Such a commotion  
Cos it's apparently curled

Chorus :

Dichotomy, It's all around me now  
It's all around me now  
I'll wait for you somewhere

Well there's a planet in the ocean  
They call it love of the girl  
Did you bring the suntan lotion  
And the parasol furled  
In the ocean  
It's a terrible world  
Careful with the axis  
This planet's love of the girl

Repeat Chorus
