

# Salamandra, Metal Fever

We rock through night  
We're metal knights  
coming to give  
the right direction  
it's your redemption

We blow your mind  
We'd like to see  
banging your heads  
with satisfaction  
with affection

The guitar vibrates  
crunching so high  
charging the air  
Go mad  
go insane  
get all your power out  
to share

The metal beast  
cannot be ceased  
gets everyone  
that's our evil  
heavy metal fever

Riding so wild  
Nobody's mild  
give what you've got  
that's our evil  
heavy metal fever  
heavy metal Hell

We ride through night  
our metal steeds  
feeling the rage  
the right explosion  
your fate's been chosen

We have fierce guts  
we hold heads high  
to show our pride  
with real emotion  
with devotion  
The guitar vibrates  
crunching so high  
charging the air  
Go mad  
go insane  
get all your power out  
to share

The metal beast  
cannot be ceased  
gets everyone  
that's our evil  
heavy metal fever

Riding so wild  
Nobody's mild  
give what you've got  
that's our evil  
heavy metal fever  
heavy metal Hell
