

# Salamandra, My Worst Enemy

Catch a stream, make it real  
show you're always right  
Treat your pain, take your time  
and find out who you are  
Show your strength, don't hesitate  
forget your lonely cry  
Shake your fear off your mind  
don't let it get too far

Never conceal, let out the flame  
Never get down, you will be saved  
Regain control

Raise your head, proud of truth  
follow your just own way  
Seize a chance, set the fire  
there will be a better day  
Share your fate, share your thoughts  
find your friends anywhere  
Reach the dream that you sought  
climbing up all steep stairs

Never conceal, let out the flame  
Never get down, you will be saved  
Regain control

Nothing can make you stop to fly  
Would you leave all your hopes behind?

Don't lose your freedom...

Nothing can make you stop to fly  
Would you leave all your hopes behind?

Don't lose your freedom...

Choir  
Don't lose your freedom...  
your life
