

Saliva, All Because Of You Jamie

All Because Of You

Somethings wrong with me,
Cause I cant even feel you now

I love you so,

Am I to blind to see that theres something there behind your eyes

And its bringing me to my knees

All I want is you

All I want is you and I dont care

Cause all I do is wait in, wondering and hoping that I can survive it.

I know that all this is true, my feelings for you.

All because of you.....
