

# Salt, Bluster

I listen closely heard from a voice  
And some of you will never be able

Can I aim at?

I listen closely heard from above  
And some of you had visions too far away

Can I aim at?  
Can I be it?

They fall with me in a way as I speak  
They fall with me in a way  
They fall with me in a way as I speak  
They fall with me in a way, yeah!

I'd really like to know where you've been  
And I really like to know where you went.

Can I aim at?  
Can I be it?

I'd really like to know some of you  
Can I aim at?  
and I really like to know where you heading  
Can I be it?

They fall with me in a way as I speak  
They fall with me in a way  
They fall with me in a way as I speak  
They fall with me in a way

They fall with me  
They fall with me in a way

Can I aim at?  
Can I be it?  
Can I aim at?  
Can I be it?
