

# Salt, Honor Me

I won't leave until  
I'm done with you  
Trust me, you will need me too  
Trust me, you will need me too

In my arms you will be  
safe and firm  
I won't leave until you're close  
You won't leave until I say so

(You) punish me as (if I was) a boy  
I would not (do that to you)

I've been faithful  
through your weakest times  
Trust me, you will honour me  
Trust me, you will honour my worth
