

Salt, Honor Me

I won't leave until
I'm done with you
Trust me, you will need me too
Trust me, you will need me too

In my arms you will be
safe and firm
I won't leave until you're close
You won't leave until I say so

(You) punish me as (if I was) a boy
I would not (do that to you)

I've been faithful
through your weakest times
Trust me, you will honour me
Trust me, you will honour my worth
