

Salvador, Salt & Light

There is no doubt about it
There ain't no other way
Live, love and be about it
Light of the world to say

Don't you worry
What you're gonna be
I can see you, I can see you,
I can see you

You are the salt of all the earth
You are His feet, His eyes, His hands
You are the light of all the world
High on the hill, so let us stand
Shining bright, Salt & Light

There is no doubt about it
There ain't no other way
Live, love and be about it
Light of the world to say

Don't you worry
What you're gonna be
I can see you, I can see you,
I can see you

You are the salt of all the earth
You are His feet, His eyes, His hands
You are the light of all the world
High on the hill, so let us stand
Shining bright, Salt & Light
