

Sam And Mark, Measure Of A Man

Verse:

If one day you discover him, broken down he's lost everything
no cars, no fancy clothes to make him who he is not, the woman
at his side is all that he has got

Bridge:

and why do you ask him move
heaven and earth to prove his love has worth

Chorus:

Would he walk on water, would he run through fire
would he stand before you, when its down to the wire
would he give his life up to be all he can
is that, is that, is that how you measure a man

Verse:

If by chance all he had to give you
was three words wrapped around your finger
Would that be deep enough at the end of every day
how does a woman know if a man is what he says?

Bridge:

Chorus:

He never gives up, lets go of his dreams
his world goes around for his one true belief
is that how you know, is that what it means

Would he walk on water, would he run through fire
would he stand before you...

Would he be your anchor when the dark unfolds
Would he always love you the best that he knows?
would he give his life up, to be all he can
is that, is that, is that, how you measure a man

Chorus:

is that, is that, is that, how you measure a man
