

# Sam Brown, Now And Forever

Let's take a walk in the park  
Where we first said "Hello"  
Maybe borrow a dream for hour  
And sooner or later from nothing forget-me-nots grow  
But love grows much faster than flowers  
With daisies and roses and red lips and valentine pearls  
Ticker tape tears all alone in tortoise shell world

La la la .....  
We'll be together for now and forever

Lavender lollipops lilies and bush lullabies  
All spin in a circular motion  
The logic is lovely but sometimes it wears a disguise  
You can find it in all this commotion  
Then hope on a motorbike holding a torch to her eye  
She says "nothing is easy but everything is going to be alright"

La la la .....  
We'll be together for now and forever  
La la la .....  
We'll be together for now and forever

The stars up above will keep running on love  
And we'll be together for now and forever  
Forever
