

# Sam Fischer, Afterglow

In a minute  
All at once  
Stopped dead at the door  
I'm smiling like I caught up with God  
And He told me not to worry at all, yeah

Supersonic  
Half a night  
Maybe I'm overtired  
I'm laughing just a little too much  
I'm remembering the way that it was

I found it, want it to stay  
My broken heart starts to race  
I can't look, can't look away  
I can't look away

Now I'm  
I'm up so close in a blinding light  
I can see it all  
Now I  
I have to know what the feeling's like  
In your afterglow  
Afterglow  
Oh

Photographic  
Diamond light  
Take a picture of this  
I'm breathing like I've finished the race  
Eyes burning and I'm red in the face, yeah

It's automatic  
The second I  
Felt the rush over my spine  
I'm staring like I'm seeing a ghost  
But I'm dreaming 'bout you taking me home

I found it, want it to stay  
My broken heart starts to race  
I can't look, can't look away  
I can't look away

Now I'm  
I'm up so close in a blinding light  
I can see it all  
Now I  
I have to know what the feeling's like  
In your afterglow  
Afterglow  
Oh

In your afterglow  
Oh  
Ooh

Now I'm  
I'm up so close in a blinding light  
I can see it all  
Now I  
I have to know what the feeling's like  
In your afterglow
