

Sam Fischer, Somebody Cares

Moving on is hard to do
I still can't get to getting through
Lived the life from my living room
I hit the heights, hated the view

My friends gave me some pills to swallow
And I even told them that they helped
But truth is they're still in the bottle
'Cause I can't even help myself

And so it goes
When I go down
I go there just to get pulled out
It's a one-man fight
Going 'round for 'round
I just wanna be someone somebody cares about
I just wanna be someone somebody cares about
I just wanna be someone somebody cares about

It's like I'm afraid of being fine
Like the love won't stay if I'm alright
So I'll call you up and I'll start a fight
'Cause how else will I stay on your mind, oh

And so it goes
When I go down
I go there just to get pulled out
It's a one-man fight
Going 'round for 'round
I just wanna be someone somebody cares about
I just wanna be someone somebody cares about
I just wanna be someone somebody cares about

My friends gave me some pills to swallow
And I even told them that they helped
But truth is I don't wanna be forgotten
Even if it's wrong, it's honest

And so it goes
When I go down
I go there just to get pulled out
It's a one-man fight
Going 'round for 'round
I just wanna be someone somebody cares about

And so it goes
When I go down
I go there just to get pulled out
It's a one-man fight
Going 'round for 'round
I just wanna be someone somebody cares about
I just wanna be someone somebody cares about
I just wanna be someone somebody cares about
I just wanna be someone somebody cares about
