

Sam Gray, This Girl

I was dreaming along
When you crippled to my life
With a smile so worm
Like a never make harm
But it seems became a trouble this far

And like my mama once said
There's no monsters hiding in my bed
But it looks quite clear
That I found one here
The way you crippled to my life

I said uuu you know how to fool my heart
Baby, still a woman
I know how to play that part
Cause I know you've played me right from the start

This girl doesn't love me
She just brings me down
And bleeds me drown
A woman I know
How you used to behave
But you have me tear me down

This girl doesn't love me
And I don't know why I even tried
Was it you or was it me?
Tell me what did I see?
Cause I only said hello
When I should say goodbye

When I hold you close
Well you told me I should go home
When I ask you why you smell?
You told me that you've got to stay
A bit longer

I said uuu you know how to fool my heart
Baby, still a woman
I know how to play that part
Cause I know you've played me right from the start

This girl doesn't love me
She just brings me down
And bleeds me drown
A woman I know
How you used to behave
But you have me tear me down

This girl doesn't love me
And I don't know why I even tried
Was it you or was it me?
Tell me what did I see?
Cause I only said hello
When I should say goodbye

So tell me baby
Tell me I should go

This girl doesn't love me
She just brings me down
And bleeds me drown
A woman I know
How you used to behave

But you have me tear me down

This girl doesn't love me
And I don't know why I even tried
Was it you or was it me?
Tell me what did I see?
Cause I only said hello
When I should say goodbye

I say goodbye
