

# Sam Nicosia, Just Get It On

Now everybody hit the dance floor  
Hit the dance floor  
Hit the dance floor  
Now everybody hit the dance floor  
Alright dance

See this is how the beat goes on  
Everyone is quiet the sound is gone  
Then the chorus comes on everyone starts to dance  
Then I see her at first glance  
With an ass so sexy  
And a body so flexi  
And then I start to sing

Just get it on  
Just get it on  
Shake that ass while the beat goes on  
Just get it on  
Just get it on  
Shake that ass while the beat goes on

As I walk up to her what do I see  
I see a guy coming up to her lookin' all happy  
He had tattoos all over his chest  
He actually thought he was the next Kanye West  
Then I see her lookin' at me  
Wonderin' if she should dumphim and go with me  
And I sing

Just get it on  
Just get it on  
Shake that ass while the beat goes on  
Just get it on  
Just get it on  
Shake that ass while the beat goes on

She dumped him quick and came to me  
Leavin' him all steamy  
You shouldv'e seen her  
She was hotter than hell  
Then she came and kissed me  
I thought I heard the liberty bell  
While in my head i sang

Just get it on  
Just get it on  
Shake that ass while the beat goes on  
Just get it on  
Just get it on  
Shake that ass while the beat goes on  
Just get it on  
Just get it on  
Shake that ass while the beat goes on  
Just get it on  
Just get it on  
Shake that ass while the beat goes on
