

# Sam Phillips, Animals On Wheels

am I your pussycat? I know what's new  
it's the oldest hat in the book  
we can't get fast enough to go backwards  
totake a second look

animals on wheels faster all the time

some want to leave us and go to another planet  
and blow up the earth  
they'd still be murderous, lying and they'd want it all

for whatever it's worth

famous is fast  
you don't have to be talented or do good work or be smart  
it's perfect for me  
but everytime I go after it  
my ideals run off with my heart
